the City Hall and in the city departments. They are the faces of the energetic young politicians just appointed the Tammany ders of the new districts formed under the reapportionment made by the Board of Aldermen July 19.

iness at the departments is to look after the interests of their constituents who want appointments or have other business in the public service. The new leaders are around early and often, and are giving the older hands at the game of politics a close race for the desirable places.

THOMAS J. DUNN. The position of a district leader is an prerous and reponsible one. It takes a man of tast and ability to gain and maintain nower and influence and a following and to iate all the conflicting interests of the party in a district. A place must be provided for this one and that one; when a stituent is unfortunate enough to be ar-

JOHN J. RYAN.

In the selection of his latest lieutenants Mr. Croker has carried out his idea of strengthening the organization by the infusion of young blood. They are all young men. The roungest is Maurice Fentherson, of the Twenty-second District. He is not thirty years old, and, being clean shaven, looks much younger than he is. He will be known as the boy leader of Tammany Hail.

WILLIAM IL BUREE. Mr. Featherson is the founder of the Social Clab that bears his name. He is married and lives at 443 East Seventy-eighth street.

G. W. Dowen, Occoba, South Dakota.

runds. Leader John B. Sexton, of the Twenty-third District, is well known to the public through the Sheriff's office, where he holds the posi-tion of Under Sheriff. He entered the Sheriff's office when Mayor Grant was Sheriff. It is said he will be the candidate for Sheriff when Sheriff Gorman's term expires. Mr. Sexton is just thirty-five years old.

The leader of the new Twenty-eighth District, W. E. Stillings, also belongs in the Sheriff, soffice. Mr. Stillings is counsel to the Sheriff, soffice. Mr. Stillings is counsel to the Sheriff. He lives on Washington Heights, where he became popular and well known while holding the office of School Trustee.

The Department of Public Works has furnished two of the new leaders. Superintendent of Streets John J. Ryan has been placed in charge of the Twenty-fith District, and Water Purveyor W. H. Burke, of the Twenty-sixth. Mr. Ryan was formerly President of the Hrickmakers' Union. Afterwards he became an attendant in the Ninth District Civil Court and later he was dockmaster. WILLIAM E. STILLINGS.

Water Purveyor Burke is known as a hus-ler in politics. His promotion is the re-suit of active and successful work. Jacob Seabold, of the Twenty-ninth As-sembly District, has been known as Fire Commissioner Purroy's able assistant in poli-

tics. He has had considerable experience as a political manager. He was beputy Com-missioner of Street-Cleaning under Commis-sioner Coleman, and as an official showed marked executive ability.

Mrs. Ruhling May Die from Injuries on the Railway Track.

Lose Branch, July 25.—Mrs, William Rub-ling, of 2d Rivington street, New York, the cers, who never could find the inmates, the beroic young mother who saved her threeyear-old daughter Katle from being run over
by a train of the Jersey Central Kaliroad last
Saturday, is still hovering between life and
death to-day, there being but faint hopo held
forth by the physicians for her recovery.

While sitting on the veranda of the Star While sitting on the veranda of the Star Hotel here last Saturday evening, holding

her three-months-old baby. Edna, in her arms, Mrs. Rubling heard some women scream. Feeling instinctively that the screams might in some way relate to little Katle, who had strayed from her mother's side, Mrs. Ruhling jumped up and began to look for the child. To her horror she saw the little one standing motionless on the tracks, not far from the hotel, gazing at an approachnot far from the notel, gazing at an approaching train as it transfixed with right.

Engineer John Allen reversed the engine as soon as he saw the child's perfit, but it was soon as he saw the child's perfit, but it was too late. Another instead and the train would have been upon the little one. At this moment the franke mother, who had not even lain down little Edna, was on the even lain down little Edna, was on the tracks and with her disengaged hand caught tracks and with her disengaged hand caught.

leader, and in a thousand and one ways the leader must make friends and know how to keep them, so that on election day he can get all his party's vote in the box and carry his district.

When it is considered that a district leader is the practical ruler or is responsible for an army of 50,000 people or more, he must be regarded as a man of importance.

The affair was well planned and executed with deliberation and order. While the bodies were swinging some one suggested who are swinging some one suggested who in this state, their father being a well-to-dorance in Tuiars County.

strangulation and suffocation.

He who goes down into the sewer of this own will find no ancient dungeon cells built into her walls. Nor will a hideous fron collar, relic of the choking, kidnapping middle age, be found hanging to her walls.

The venturesome citizen will be surprised at the cleanliness of the city's mammoth intestines; to find that her circulation is so good, that there is such a wholesome bealthy flow in her arteries and that the at-

universal use of the water supply that flows through the great mains and pipes from Cro ton Lake into every house, every hovel in the city; partly due, too, to our insular situation but a few feet above tide water, and partly to the eternal vigilance maintained by Engineer Fire broke out in the tenement-house at Horace Loomis and his men in charge of the 330 Cherry street early this morning, which sewers for the Department of Public Works. for a few moments caused a good deal of ex Paris boasts of 140 miles of sewers. New York already has 437 miles of conduits for Nine families live in the house, and Mrs. Its retuse. This grand system of sewers cost Noonan, who lives on the third floor, being to construct more than \$13,000,000. The lil, had to be carried out. Some difficulty in sewers run underneath nearly every street. sewers run underneath nearly every street and avenue in the city, and the system is reduced to a perfect science.

Albert Smith, a half-witted fellow, giving his home as 85 Walworth street, Williams-

Down to very recent times the sewers of Paris were but miasmatic sinkholes. Thousands of lives were lost in clearing and improving them—"making the toilet of the sewers, and a smart shower of two hours acts as a spientid bath for the conduits.

But this is only an occasional bath, and today, with 140 miles of sewer, costing sewer, "as the Poet of Liberty called it. And today, with 140 miles of sewer, costing their vapors.

"The air taken from a stable yard is purer, as has been scientifically proven, than the air breathed in Paris."

Take New York off, like a cover, and there will be found another New York: underneath. A New York of sewers, which has streets and avenues, squares and blind alleys, crossings and corners.

Lower is the first than the air breathed in Paris."

A New York of sewers, which has streets and avenues, squares and blind alleys, crossings and corners.

Lower is the first than the air breathed in Paris."

A New York of sewers, which has streets and avenues, squares and blind alleys, crossings and corners.

Lower is the first than the work of the beholders, has necticer work to do before it becomes mere waste. It goes to Join the water that has travelled from cellar to roof and back again in the business of purifying the city's subway conductors. Thus 250,600 gallons of water from the miasmas that artise in other great cities from their less perfect sewer systems.

Comparatively few men are employed in the water could and the park of submary the awars.

From this old collect Point two streams had flowed, the one to the south and into the East River, the other to the west and into North River; and for years there had been projected a ship canal with these streams and point for a nucleus, the canal to run from river to river. It was said in those days of wisdom that the canal would always form the northern boundary of the city and the depot of the New York and Harlem Railroad was built upon its slie, the creeks were utililized in another way, and to-day their waters flow in the Rooseveit street and the Canal street sewers.

The latter starts on the apex of "Bayard's hill," how the corner of Canal street and the Bowery. The course of the stream was straightened, and the great stone arch is but the roof of the outs ream.

The scientists assertain the condition of the stream, and if you make this test in this great arcade sewer, broad enough to march a regiment through in files of eight, you will nind the chemical paper comes out untarnished.

Twice every twenty-four hours the tide washes the floor of the sewer clear back to Broadway, while for several hours each day it is filled with sea water from floor to ceiling far back from its gigantic mouth. Its floor is 31 feet above algh-water mark at the flowery, but at high tide the great, gaping mouth is entirely suomerged.

The Tweaty-third street sewer, into which poor Callahan feel and was drowned, runs from Lexington avenue, the very polit where he fell in, down to East fitive. It was built in 1847, and is five feet wide and four feet deep. The flow of waste water from the buildings that empty into the ributaries of this inderground river is so constant and so great that it is nearly always half filled by the stream.

hands and "ordered" these things when they thought them needed.

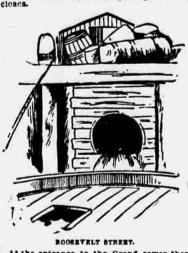

It was not till 1865 that the sewers of Gotham were reduced to order by the Legislature of the State, and since then there has been a constant effort to systematize New York's gigantic digestive apparatus.

The altuation of New York is without a lower up to the surface of the readway above, though in the lower wards and flat districts they are irequently much hearer the surface, and the Canal Street sewer lies but twelve inches below the pavement at its point of beginning.

But in the newer territory and the sections

HOUSTON STREET.

At the entrance to the Grand sewer they found, hanging to a crag in the wall of the passage, a frayed, shapeless rag of delicate fabric. On one corner was a heraldic crown, embossed and the letters "Lavbesp." The crown wan a Marquis's crown, and the letters signified "Lambesfine."

It was the night-robe of a Marquise, the lady with whom Marat had had improper intimacles. The old women of Paris decked out Marat in this robe after death. It was the winding sheet of the "Friend of the People." A Marchioness had slept in it. Marat had rotted in it. It had passed through the Pantheon to come to the rats of the sewer.

The sewer men of New York find little or nothing in the sewers. Now and then a stray coin has cluded its above-ground owner to reach the dirty fingers of the subterranean toller.

In olden days the sewers of New York were in londen days the sewers of New York were in londen days the sewers of New York were in londen days the sewers of New York were in londen days the sewers of New York were in londen days the sewers of New York were in londen days the sewers of New York were in londen days the sewers of New York were in londen days the sewers of New York were

in olden days the sewers of New York were the rendezvous of thieves and robbers. To-day their only living habitues are rats and bugs.
There is little danger to the workers in the
New York sewers. Fatalities seldom occur. There is little danger to the workers in the New York sewers. Fatalities seldom occur. Under Broadway there is very little sewer, almost none at all below Madison Squars, the buildings on this great thoroughtare draining into the sewers under the cross streets. This is fortunate in view of the almost constant excavation of Broadway for other purposes, and, indeed, it would be difficult to find a bed for a sewer there, the subsurface from curb to curb being already literally crowded full of steam-pipes, gas-mains, subway conductors and tubings of all sorts.

## FIRE ON THE CHARLESTON.

Flames on the White Cruiser. IBY ASSOCIATED PRESS. 1

PORT ORCHARD, Wash., July 25 .- A fire broke out in the coal bunkers of the United States cruiser Charleston Friday. Within thirty seconds the pumps were started, and, after battling with the flames for thirty-five minutes, the fire was subdued.

The fire was cause by spontaneous combustion. The deck in the steerage had to be torn up to reach the flames. The berth deck in the steerage was partly destroyed, as were also the officers' bunks and part of the fittings. tings.

The damage will not necessitate the ship's return to Mare Island.

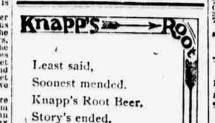

### RUN OVER BY AN ENGINE.

wheelmen.

The Asbury Park wheelmen have decided to place on the programme of events for Aug. 6 a live mile scratching for a programme of events for Aug. 6 a live mile scratching for the result of the price a planu, second prize an organized the price a planu, second prize for this race will close Aug. 3.

On Wednesday Zimmerman is expected home, and the wheelmry state of this richard will go down on the steamer trystal. Still richard to meet him. Boat leaves foot of West Eleventh a feed at 7 a. M., and foot of Vesey street, North Myer, at 7.30 a. M.

The managers of the Springfield tournament, to be held in the Fall, have arranged for nineteen events on the two days programme, and as the prices are instill diamonds, it will be known as the Diamond fournament. Summed up, the prices are as follows: Teenty-saven diamonds, values distributed from \$200 to \$25, the high-grade program. Thek and a team of horses valued at \$1,000.
